Q3 2024 PEFORMANCE OVERVIEW

The Zimbabwean equities market experienced a significant surge in the third quarter of 2024, with the ZSE All Share Index rising by 85.5%. This uptrend was largely driven by top ten counters. As a result, Listed Equities and Balanced Portfolios delivered positive returns, closely mirroring the equities market's performance. Meanwhile, Alternative Investment portfolios also fared well, driven primarily by stable values of properties and unlisted equities. Notably, fixed income portfolios did not feature prominently among the asset managers' holdings during this period.

Q3:2024 Performance Overview

The Q3 2024 Survey provides insight into the performance of Listed Equities, Alternative Investments, and Balanced Portfolios, with no participants in the Fixed Income category. The quarter saw a notable 85.5% surge in the ZSE All Share Index, driven by the strong performance of the top 10 stocks. Half of the investment managers participating in the survey delivered positive returns, with most surpassing the benchmark due to astute stock selection. Meanwhile, Alternative Investment portfolios yielded returns exceeding inflation.

Mandate Based-Composites

The survey's findings indicate that most investment portfolios in Zimbabwe are balanced, with a smaller number specializing in equities or alternative investments. This suggests that investors in Zimbabwe tend to favour a diversified approach, entrusting full-allocation managers with their investments rather than specialist managers.

ABOUT THE SURVEY

The Intellego Investment Manager Survey Report covers investment performances of the Investment Managers based on the institutional portfolios under their management and for which Intellego are the Investment Advisors. Where an Investment Manager had indicated willingness to have portfolios not advised by Intellego included, this will only be done on a firm wide basis on condition that Intellego shall have access to and independently calculate the returns of such portfolios. The performance figures are based on returns calculated by Intellego and Intellego takes full responsibility for the accuracy or otherwise of the numbers. The Composites are as defined by Intellego based on the general investment strategies and asset classes available in Zimbabwe. Each qualifying portfolio is included in a composite on the basis of its beginning of period asset allocation. The Policies related to Composite construction, calculation methodology and reporting of the Survey are available upon request from Intellego Investment Consultants (Ltd). Intellego reserves the rights to amend the Survey as it considers appropriate.
